# The Concept

## Us

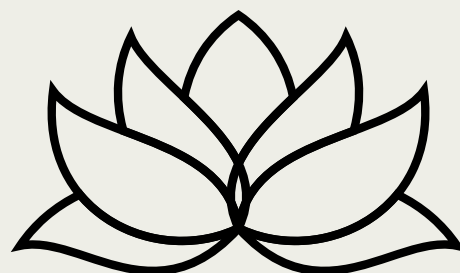

We are passionate about the art of massage —an ancient language that unites body, mind, and breath. Through technique and presence, we create experiences that awaken vitality and restore inner balance. More than a service, we offer a space of silence, harmony, and genuine connection.

---

## Philosophy

Each session is unique —the result of attentive listening and conscious adaptation. We don't follow formulas: we listen, we feel, and we respond to what your body truly needs. We believe massage is a dialogue between knowledge and intuition —an ancestral practice that harmonizes movement, energy, and awareness.

# The space

## Hotel Krista

We operate within a boutique hotel housed in an early 20th-century residence —a serene, light-filled retreat in the heart of Palermo.

Amid light, greenery, and the quiet of a garden with a pool and solarium, the surroundings become part of the ritual: a sanctuary where the body softens into rest and the mind returns to its natural stillness.

# The massages

The massage room is for private and exclusive use. All massages include access to the wellness circuit (dry and steam sauna). All our therapists are women

## Deep Tissue Massage

Releases deep muscular tension and relieves physical discomfort caused by stress, poor posture, sedentary habits, or physical overload.

---

## Relaxing Massage

A soothing experience designed to induce a state of deep calm, emotional balance, and overall well-being.

---

## Sports Massage

A specialized manual technique that effectively supports regular physical activity. This is an intense, firm massage aimed at athletes and active individuals.

---

## Foot Reflexology

Gentle stimulation of reflex points on the feet that correspond to different parts of the body.

---

## Manual Lymphatic Drainage

A gentle and precise technique that stimulates the lymphatic system, helping eliminate toxins, retained fluids, and metabolic waste.

---

## Bruxism & Craniofacial Treatment

Relieves chronic tension in the jaw, neck, and head areas. This treatment is always applied in combination with another massage.

---

## Four-Hand Massage

Two therapists work in perfect synchrony, treating different areas of the body at the same time to release tension and restore balance to the whole system.
